Testimonials

Robin Clark, Global Head of Regulatory Affairs AXA Group

“Thank you for attending my recent annual global team seminar in Istanbul to present your 3D methodology for the science of success.

In 90 minutes you captivated and motivated a diverse group of 30 people from 10 different countries with your first hand tales of how you came back time and again to finally achieve your goal of a world title. The feedback from participants was excellent, and they clearly also enjoyed talking with you afterwards.

We wish you every success with this business venture and hope that there will be further opportunities for you to work with the AXA Group.”

Grainne Farrell, Integrated Healthcare Business Manager, Astrazeneca

“Billy came along for an afternoon to a team meeting to work with my sales team. By the end of the session the energy in the room was amazing! People were left feeling empowered and with specific actions which have really improved their performance and motivation.”

Paul Crewe, Central Services Director Land Securities Property Management

“Billy was invited to speak at our recent Property Management Conference, which was entirely themed around 'change'. Billy closed our first day with what I can only describe as a very passionate, enthusiastic, high-energy and motivational session. Billy focussed on the audience as individuals and how we all handle and manage change both positive and negative in our lives, through Billy sharing his thought provoking and emotional personal experiences both in and out of the ring.”

Steve Corcoran, Chief Executive Speedy Hire

“To mark the successful completion of our Speedy Senior Leadership Development programme, we invited Billy to speak at our end of course dinner. The feedback from the group was extremely positive; Billy spoke from the heart, and was disarmingly honest about his life - the good times and the bad. His determination, commitment and resilience to fulfill his dream were absolute - values that we can identify with here in Speedy. There are numerous parallels from Billy's life story that have real relevance to today's challenges that we all as business leaders face. Having spoken to the audience some months after hearing Billy, it is clear that they each have retained key messages that they took from Billy - which has to be the best indicator of Billy's impact.”
